#### TASTE @ LOMOND 2020

Find out more about this year's Taste @ Lomond 2020 trade show.

# WELCOME TO THE WORLD OF LOMOND

Here at Lomond, we like to think of ourselves as more than a food wholesale company - we don't just 'shift boxes of food' - we live food. Our belief is that we should be excited about the opportunities food can present - bringing people together, from all walks of life.

Our annual trade show does just that - brings together customers and suppliers from across the country, to talk about everything food, packaging and beyond. This year we're including cooking demonstrations and a new section of the show devoted to start-ups and new, innovative products. Come along on the 13th & 14th May to expand your network and grab a great deal.

Speaking of innovation - it's no surprise that the range of plant-based products has continued to expand, so we've created a Vegan section in this year's brochure, to make it easier for you to find the products you need. Take a look at pages 14-22 to see our range.

Keep an eye out for our new recipes throughout the brochure, including our halloumi fries cover image and some innovative ways to serve burgers and other tasty food-to-go.

We've had some great feedback on our butchery guide, so we've expanded it this year to include various cuts of meat - take a look at page 31.

Once again, thanks for your continued support. We hope this year's brochure is a helpful handy guide and inspires you to try something new and delicious.

**Plant-based food is going from strength to strength. We've made it easier for you to find our vegan products in this new section.**

We've included everything from soups and stews, to dairy alternatives, kitchen essentials and ready-made options. If you're looking for a quick vegan option to add to your menu - try a ready-made curry sauce and add chickpeas, or try one of our meat-free burgers in place of a beef option. Topped with vegan cheese and salad - you'd never know the difference!

# OUR NEW VEGAN RANGE

Once upon a time, vegan options consisted of boring salads, mushy vegetables and a huge lack of flavour, but, with recent developments, vegan food is now tastier than ever and, crucially, easy to prepare - meaning you can accommodate plant-based eating into your menu with minimum fuss & maximum taste!

We work closely with emerging brands to bring you the latest and greatest plant-based foods - including the Beyond Meat burger; a range of meat free mince, meatballs and burgers, and a whole host of vegan cheese and plant-based milk alternatives.

### BLACK PEPPERED BRISKET PASTRAMI - 77820

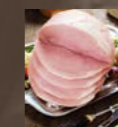

**Bloors**  
Quality Hams  
— Since 1904 —

Four generations of the Bloor family have been producing high quality hams in Leicestershire for over 100 years.

### THE KETTLE RANGE

The kettle range of hams are cooked using the authentic, traditional method of cooking in open water. The still water seals the hams as they are delicately simmered, giving them a superb taste and texture profile creating a flavour of the past. The range includes bone-in easycarve and boneless hams all of which can be honeyglazed or smoked.

### THE TRADITIONAL GAMMON RANGE

Our Gammon range of hams are based on a recipe of over 40 years. The legs are expertly boned out to a high internal specification before being cured, gently tumbled and matured to give a lean, full muscle, Deli-style product or slicing gammon with a delicious gammon flavour.

### THE FESTIVE ROAST

The Roast Festive range was created by David Bloor in the 1960's. It's a genuine roasted ham that is matured for several days in tanks of brine with demerara sugar and salts to give a unique roast with a succulent rich flavour. It is a popular and appealing Deli-style product that can also be sliced.

### SLICING RANGE

We use the very latest in scanning and slicing equipment for portion control, combined with specialist nets and casings we provide lean evenly faced sliced packets from whole or formed logs. Slicing log joints can also be ordered whole, half or bespoke cut in the normal manner.

### THE WILTSHIRE CURE RANGE

Expertly boned out by our own team the legs are matured in our authentic live brine for a minimum of 3 days then air dried to allow the flavours to fully develop as the hams mature. They are then matured further before being gently slow-cooked to create a succulent, traditional Wiltshire ham.

# DON'T TALK BULL!

## GET TO KNOW YOUR CUTS OF MEAT!

We've expanded our Butchery Cuts Guide this year to include more types of meat - so now there's no excuse for mixing up your flank with your fillet.

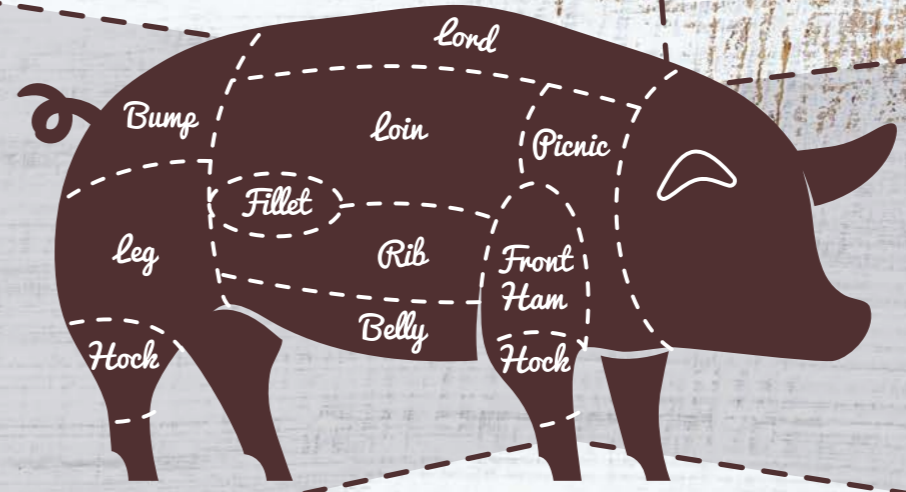

As always, if you want anything that isn't listed, let us know - we can speak with our buying team and do our best to get our hands on whatever you need.

## CHICKEN

A great choice of cuts, ideal for adding to your existing recipes. Add flavour with our range of rubs and seasonings on page 67

Take a look at our cooked chicken range in the previous section for more options, including time-saving flavoured varieties.

## PORK

A varied range, including pork trim, ribs, mince, smoked ham hock and diced shoulder - perfect for slow-cooking.

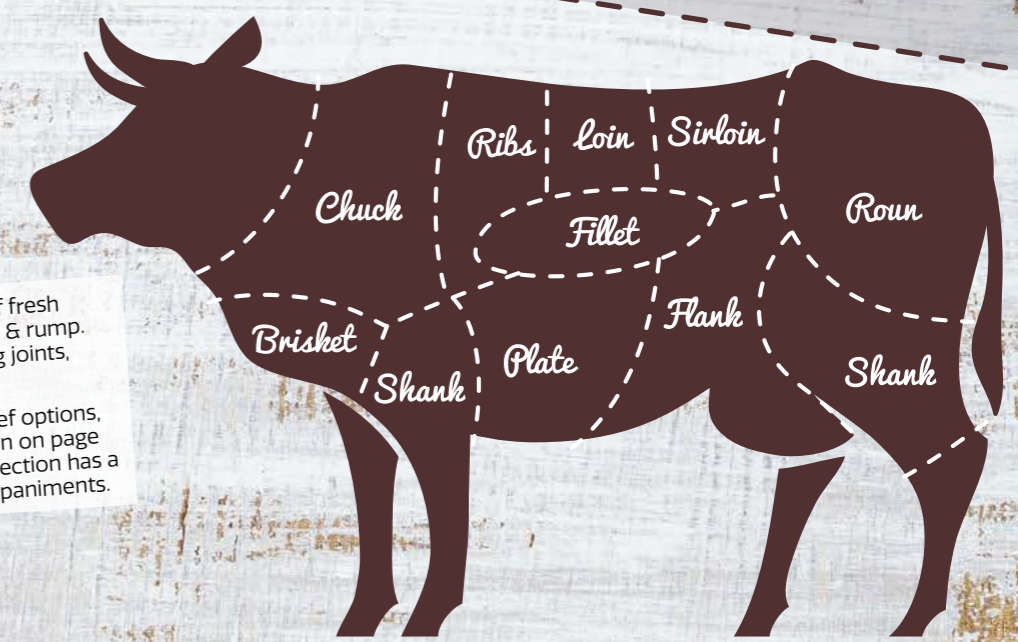

We also supply a wide range of gammons - you can find these in this butchery section.

For cooked charcuterie meats, including pulled pork and ham, see our range on pages 23-27.

## BEEF

Choose from a wide selection of fresh steak cuts, including sirloin, fillet & rump. We also have a range of roasting joints, brisket and mince.

For burgers and food-to-go beef options, take a look at the Big AI's section on page 34 and our Fruit & Vegetables section has a great choice of roasting accompaniments.

Grated twice.  
Grated once.  
Perfect...  
always.

Introducing Spinneyfields twice-graded grated cheese.

Why twice? Because our expert graders first select cheese that meets their demanding standards. Then they grate it again to ensure it matches each customer's profile too.

Only then do we grate it and call it Spinneyfields.

Spinneyfields grated cheese is part of a new range specially chosen for the foodservice industry to guarantee every dish is served to perfection.

Which explains why chefs are already giving it a big vote of approval.

# CHICKEN TIKKA

# NAANWICH

Rustle these up quicker than you can say ...  
**"WHAT'S A NAANWICH?"**

Simply serve the chicken tikka on it's own, or mix with your choice of curry sauce and warm through (a few mins in the microwave should do it!) and while that's heating, warm the naan bread through.

Thinly slice / shred some salad - we like cucumber & tomato. Top the naan with a handful of shredded lettuce - we like iceberg for crunch, but try spinach or rocket for extra flavour. Add a generous helping of chicken curry mix, sprinkle over a handful of your chopped veg and finish with a dollop of yoghurt & mint sauce.

A quick, easy, filling on-the-go meal in no time at all.

## INGREDIENTS

- 1 x 73666 - Folded Naan Bread
- 1 x 58716 - Chicken Tikka Marinade
- 1 x Curry Sauce - choose from:
  - 14276 - Delhi Tikka Masala
  - 33959 - Kashmir Roganjosh
  - 21886 - Madras Chettinad
  - 73530 - Malabar Curry Sauce
  - 80611 - Mughlai Korma
- 1 x 23541 - Yoghurt & Mint Sauce

Welcome to Planet Kuku  
the home of 100% plant-based fritтата

Absolutely  
*Delicious*

100%  
*Plant-based*

Lovingly  
*Hand prepared*

In 2015 we set up our first stall at a food market in Edinburgh. Today our family business offers *plant-based* frittatas, inspired by a traditional Persian kuku recipe.

No eggs, only herbs, fresh crunchy veggies and spices bound together with chickpea flour and Scottish cold-pressed rapeseed oil to create kukus bursting with flavour.

For more information call Planet Kuku on 0785 3184 549, email us at [hello@planetkuku.com](mailto:hello@planetkuku.com) or visit [planetkuku.com](http://planetkuku.com) for more details. We are happy to deliver our kukus across the UK.

All our kukus contain non-gluten ingredients and are vegan friendly.

# SOCIAL RESPONSIBILITY

**Now more than ever it's important to be aware of the impact our business can have on the environment.**

We're constantly thinking of ways to reduce our carbon footprint and send less waste to landfill, as well as reducing our emissions. With that in mind, here's just 3 positive changes we've made to become more environmentally friendly...

**We recently upgraded our fleet to include 25 vehicles fitted with hybrid refrigeration. These vehicles have thinner insulation, and their fridge engines are battery powered.**

This means that, each week, our new vehicles can carry an extra 162.5 tonne of products - that's 8450 tonne per year! These new vehicles are also 10% more fuel efficient.

All of this has reduced our carbon footprint by a minimum of 170 tonnes per year.

In late 2019 we also introduced our first electric car into our fleet, meaning our Glasgow-based rep is also emission free!

**To help combat food packaging waste, we've introduced a range of new environmentally friendly food-to-go packaging and cutlery this year.**

The compostable Enviroware range (p99) has been incredibly popular so far and appeals to anyone who wants to reduce their environmental impact. So get rid of all the plastic cutlery and make the move today!

**We take waste management seriously and have recently introduced a policy aiming to reduce our waste to landfill to zero by the end of 2020.**

We currently recycle all cardboard and plastic packaging, as well as aluminium cans. Any food waste is avoided by donating short-dated food to a number of local charities.

An estimated 2 million people in the UK are living with a diagnosed food allergy. There is no cure for food allergies or intolerances.

Food Standards Agency, 2017.

# ALLERGENS

An estimated 2 million people in the UK alone are living with a diagnosed food allergy. That number does not include food intolerances such as lactose intolerance.

We believe that everyone should be able to make an informed decision about the food they eat and we understand the difficulties our customers can face when trying to give people this information. We do three main things to ensure we provide accurate information:

- Allergens are declared on individual product labels - clearly highlighted in either bold or underlined type.

- Allergen information is held for all products - as part of our specification library. These specs can be sent to you on request and are immediately available.

- Gluten Free items are clearly marked throughout the brochure.

If you have any queries about the products you are purchasing, or considering purchasing, please speak to your sales rep, telesales advisor or our technical team.
